Hospital Security & Networking Proposal

Prepared for Airport Women's Hospital

32 beds · Theatre · NICU · IVF & embryology · 24/7 emergency · Airport Residential

Protect mothers, babies, staff and data.

Date: 29th October, 2026

To: The Hospital Administrator, Airport Women's Hospital, 16 Kofi Annan Street, Airport Residential Area, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Network Infrastructure

Dear Sir/Madam,

With a NICU, an operating theatre, IVF and embryology laboratories and 24/7 emergency care, Airport Women's Hospital looks after mothers and newborns at their most vulnerable. Film Beyond Imagination (FBI) would like to help you protect them with security and network systems built for a women's and children's hospital.

What we would deliver

- **HD CCTV** at entrances, emergency, reception, car park and corridors, placed with care for patient privacy.
- **Access control** for the NICU, theatre, IVF lab, pharmacy and records, with an audit trail of every entry, a key safeguard for newborns.
- **Reliable networking**: secure, separate staff, clinical and guest Wi-Fi, and backup links.
- **Maintenance and support** under a service agreement.

Why FBI

We install CCTV, access control and networks for institutions across Accra, and we schedule work around clinical activity.

We offer a free site survey, system design and quote. We would welcome a short meeting with your administrator and IT lead.

Yours faithfully,

Jerbel Mark Addeh
