Re: Partnership Proposal for CCTV, Access Control and Networking for Your Clients' Facilities

Dear Sir/Madam,

Grundy already manages building maintenance, safety and risk management for multi-site companies across Ghana. Security and network systems fit naturally into that offer, and Film Beyond Imagination (FBI) would like to be your installation and support partner.

What we would deliver for your clients

- **HD CCTV** for offices, warehouses and compounds, with central monitoring across sites.
- **Access control** for buildings, server rooms and restricted areas, with a full audit trail.
- **Networking and Wi-Fi**: structured cabling, managed access points and network health checks.
- **Preventive maintenance** of these systems, which your team can bundle into service contracts.

What Grundy gains

- **A new revenue line** at partner rates, with room for your margin.
- **A stronger safety and risk offer**, backed by a specialist installer.

We would gladly join one of your free facility audits to add a security and network assessment at no cost. We would welcome a short meeting.

Yours faithfully,

Jerbel Mark Addeh
