Re: Proposal for CCTV, Access Control and Networking at Your Tema Warehouses and Yards

Dear Sir/Madam,

With warehousing and distribution, container stripping and stuffing, yard management and offshore logistics run from Tema, Supermaritime handles high-value cargo every day. Film Beyond Imagination (FBI) would like to help you protect it and keep your sites connected.

What we would deliver

- **HD and night-vision CCTV** over gates, yards, loading bays and warehouse aisles, with clear footage for every container movement.
- **Central and remote monitoring** for management and clients.
- **Access control** for gates, stores and offices, with vehicle and visitor logs.
- **Reliable networking** and yard Wi-Fi for scanners, systems and cameras.

The benefits

- **Fewer losses and faster resolution** of cargo disputes and claims.
- **One local installer and support contract** for all your Tema sites.

We offer a free site survey, system design and quote. We would welcome a short meeting at your Tema office.

Yours faithfully,

Jerbel Mark Addeh
