Re: Proposal for CCTV, Access Control and Networking at Adoma Supermarket

Dear Sir/Madam,

Shrinkage, till disputes and break-ins quietly eat into a supermarket's profit. Film Beyond Imagination (FBI) installs CCTV and security systems that help Adoma Supermarket stop losses and see what is happening in the shop at any time.

What we would install

- **HD CCTV** over tills, aisles, high-value shelves, the store room, entrances and car park, with clear night recording.
- **Remote viewing** on the owner's phone, so you can check the shop and the tills from anywhere.
- **Access control** on the store room and office, and secure Wi-Fi for your POS and staff.

Why FBI

One FBI team designs, installs and maintains the cameras, access control and network, with neat cabling, clear labelling and remote viewing set up on your phones before we hand over.

We would welcome a short visit to carry out a free site survey and give you a clear quotation, with no obligation.

Yours faithfully,

Jerbel Mark Addeh
