Re: Proposal for CCTV, Access Control and Networking at Reliable Logistics and Services Ltd

Dear Sir/Madam,

Goods in storage and in transit are only as safe as the yard and warehouse that hold them. Film Beyond Imagination (FBI) would like to help Reliable Logistics and Services Ltd protect cargo, settle disputes quickly and reassure clients.

What we would install

- **HD and long-range CCTV** over the yard, gates, loading bays, warehouse aisles and perimeter, with night vision.
- **Gate and office access control** with a log of every entry, and vehicle number-plate cameras at the gate.
- **Reliable networking and Wi-Fi** across offices and warehouse, with remote viewing for management.

Why FBI

One FBI team designs, installs and maintains the cameras, access control and network, with neat cabling, clear labelling and remote viewing set up on your phones before we hand over.

We would welcome a short visit to carry out a free site survey and give you a clear quotation, with no obligation.

Yours faithfully,

Jerbel Mark Addeh
