Clinic Security & Networking Proposal

Prepared for St. Luke's Clinic

Private clinic · Airport Residential Area, Accra

Safer patients, protected staff, secure records.

Date: 4th November, 2026

To: The Management, St. Luke's Clinic, Airport Residential Area, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Networking at St. Luke's Clinic

Dear Sir/Madam,

Patients, staff, medicines and equipment all need protecting, around the clock. Film Beyond Imagination (FBI) installs modern security and network systems that help St. Luke's Clinic prevent theft, settle disputes quickly and keep records safe.

What we would install

- **HD CCTV** at the entrance, reception, waiting areas, pharmacy, corridors, car park and perimeter, with night vision and recordings kept for weeks.
- **Remote viewing** on management phones, so you can check the facility from anywhere.
- **Access control** on the pharmacy, store rooms, records and staff-only areas, with a log of who entered and when.
- **Reliable Wi-Fi and networking** for staff, booking systems and patients, kept separate for security.
- **Maintenance plans** so cameras and recorders keep working after installation.

Why FBI

One FBI team designs, installs and maintains the cameras, access control and network, with neat cabling, clear labelling and remote viewing set up on your phones before we hand over.

We would welcome a short visit to carry out a free site survey and give you a clear quotation, with no obligation.

Yours faithfully,

Jerbel Mark Addeh
