Hospital Technology & Media Proposal

Prepared for FOCOS Orthopaedic Hospital

8 Teshie Street, Pantang, Accra

Secure for patients, connected for care, seen by the world.

Date: 3rd November, 2026

To: The Hospital Administrator, FOCOS Orthopaedic Hospital, 8 Teshie Street, Pantang, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Networking, and Live Streaming of Conferences and Patient Education

Dear Sir/Madam,

FOCOS combines specialist orthopaedic, spine and neurosurgical care with 24/7 emergency services, telemedicine, research and academic programmes, and public events such as your "Ask A Specialist" sessions. Film Beyond Imagination (FBI) can support both sides: keeping the hospital secure and connected, and helping your expertise reach more people.

Security and networking

- **HD CCTV** at entrances, emergency, pharmacy, wards and car parks, with 24/7 recording and remote viewing for management.
- **Access control** for theatres, pharmacy stores, records and staff-only areas, with an audit trail.
- **Structured cabling and managed Wi-Fi** for clinical systems, telemedicine and radiology, separated from visitor access.

Media

- **Live streaming** of conferences, symposiums and "Ask A Specialist" sessions, multi-camera, to YouTube, Zoom or Facebook.
- **Patient education and stories**, plus films for partners, donors and international visiting surgeons.

Why FBI

We work quietly around patients and shifts, document every installation, offer maintenance plans, and run our own live channel, FBI TV.

We would welcome a visit to carry out a free site survey and to discuss your next conference or live session.

Yours faithfully,

Jerbel Mark Addeh
