**Re:** Proposal for Estate-Wide CCTV, Access Control and Smart Home Options Across Your Gated Communities

Dear Sir/Madam,

Rehoboth builds gated communities in Amrahia, Kwabenya and beyond, with Rehoboth Palm planned at 1,400 homes, and serves buyers in Ghana and the UK. At that scale, security is part of the product. Film Beyond Imagination (FBI) designs and installs the systems that make it visible from day one.

### Estate Security Package

- **CCTV** at gates, perimeter, streets, playgrounds and common areas, with recording and a monitor in the guardhouse.
- **Gate access control** for residents, visitors and service staff, so the estate knows who comes and goes.
- **Phased roll-out** that grows with each Rehoboth Palm phase, with maintenance plans after handover.

### Smart Home Options for buyers

- **Essential:** video doorbell, outdoor cameras viewable on the owner's phone and a smart lock.
- **Comfort:** Essential plus phone control of lighting, AC and the gate, with "Away" and "Night" scenes.
- Offered as upgrades at purchase, ideal for UK-based buyers who need to watch over their homes remotely.

### Why this sells homes

Visible security and smart features help Rehoboth stand out, especially to diaspora buyers. We can fit out a show house, such as The Granary or The Oak, so buyers experience it on a viewing.

### Why FBI

One team designs, installs and maintains the cameras, the network and the automation, working alongside your contractors.

We would welcome a meeting to prepare a free site survey, design and quotation.

Yours faithfully,

---
