Media & Campus Technology Proposal

Prepared for AIMS Ghana

Spintex (Manet) · SummerHill Estates, East Legon Hills, Accra

Share Africa's mathematical talent with the world.

Date: 2nd November, 2026

To: The Centre President and Communications Office, AIMS Ghana, Kasa Global Villa, 1 Shoppers Street, Manet, Spintex, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for Live Streaming, Institutional Films and Campus Security and Networking

Dear Sir/Madam,

AIMS Ghana trains some of Africa's brightest mathematical scientists, with partners, alumni and families across the continent and beyond. Film Beyond Imagination (FBI) would like to help AIMS share its graduations, lectures and research with that audience, and keep its campus secure and connected.

Media

- **Live streaming of graduations**, public lectures and conferences, multi-camera, to YouTube, Zoom or a private link for families abroad.
- **Institutional films:** student and alumni stories, research highlights and short films for funders and partners.
- **Photography** for reports, websites and social media.

Campus technology

- **CCTV** for entrances, residences, labs and car parks, with recording and remote viewing.
- **Access control** for offices, labs and residences.
- **Structured cabling and reliable Wi-Fi** across teaching, residential and office spaces.

Why FBI

One Ghanaian team for media and technology, with experience in live production through our channel FBI TV and installations for clients such as Imperial Homes.

We would welcome a meeting to plan your next graduation or lecture and offer a free campus site survey and quotation for security and networking.

Yours faithfully,

Jerbel Mark Addeh
