Hospital Security & Networking Proposal

Prepared for Lapaz Community Hospital

Main Hospital, Abeka-Lapaz · Annexe, Christian Village, Achimota

Safe for patients, secure for staff, around the clock.

Date: 2nd November, 2026

To: The Hospital Administrator, Lapaz Community Hospital, Anorhuma Street, Abeka-Lapaz, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Network Upgrade Across Both Facilities

Dear Sir/Madam,

Lapaz Community Hospital runs 24 hours a day across its main hospital and Achimota annexe, with around 84 beds, some 20 departments and roughly 300 patients a day on fully computerised systems. That makes security and a dependable network essential. Film Beyond Imagination (FBI) designs, installs and maintains both.

Security

- **HD CCTV** at entrances, emergency, pharmacy, wards, car parks and cash points, with 24/7 recording and remote viewing for management across both sites.
- **Access control** for theatres, the fertility centre, pharmacy stores, records and staff-only areas, with an audit trail of who entered and when.
- **Visitor management** at wards and maternity, supporting patient privacy and newborn safety.

Networking

- **Structured cabling and a stable network** for your computerised records, lab and imaging systems.
- **Managed Wi-Fi** separating clinical systems from patient and visitor access.
- **A secure link between the two facilities**, so records and cameras are available at both.

Why FBI

We work quietly around patients and shifts, document every installation, and offer maintenance plans so systems stay up.

We would welcome a visit to carry out a free site survey of both facilities and prepare a design and quotation.

Yours faithfully,

Jerbel Mark Addeh
