Re: Proposal for Impact Documentaries, Campaign Videos and Photography for HFFG Programmes

Dear Sir/Madam,

HFFG's work reaches people where it matters most: peer and psychosocial support for adolescent girls and young women at Ridge Hospital and in schools, youth HIV and STI prevention with AHF Ghana, and advocacy for sustainable financing of primary health care, immunisation and malaria control. Donors, partners and policymakers respond most strongly to real faces and real voices. Film Beyond Imagination (FBI) would like to help HFFG show that impact on screen.

What we would produce

- **Impact documentaries** of 3 to 5 minutes for each programme, built around the young women, peer educators and health workers involved, filmed with care, consent and dignity.
- **Advocacy and campaign videos** for immunisation, malaria and primary health care financing, cut for social media, radio-style audio and presentations to decision makers.
- **Short social media series** and explainers that young people will actually watch and share.
- **Event coverage and live streaming** of launches, policy dialogues and anniversaries, with photography for reports and press.

What HFFG gains

- Stronger donor reports and funding proposals, with video evidence of results.
- Content partners such as AHF Ghana can share, extending your reach.
- A single creative partner for films, photography, campaigns and streaming, at NGO partner rates.

Why FBI

We produce films, campaigns and live broadcasts across Ghana for clients including the District Assemblies Common Fund and Criterion Media House, and run our own live channel, FBI TV. We handle sensitive stories responsibly and agree consent and safeguarding with you before filming.

We would welcome a short meeting to understand your 2027 priorities and prepare a free concept and quotation for one programme film.

Yours faithfully,

Jerbel Mark Addeh
