CCTV & Networking Proposal for Your Branches

Prepared for The Mall Pharmacy

Accra

Every branch, every shelf, visible from your phone.

Date: 9th November, 2026

To: The Management, The Mall Pharmacy, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Remote Monitoring and Network Infrastructure Across The Mall Pharmacy Branches

Dear Sir/Madam,

Running pharmacy branches across key locations means high-value stock, controlled medicines, cash at the counter and long opening hours, often while management is at another branch. Film Beyond Imagination (FBI) installs the security and network systems that let you see and run every branch from one place.

CCTV and remote monitoring

- **HD cameras** covering the counter, till, shelves, dispensary, stock room and entrance, with night vision and 30+ days of recording.
- **One app for all branches**, so owners and managers can view any branch live and review footage from their phone.
- **Alerts after closing hours** and clear footage to resolve stock losses, disputes and incidents.

Networking

- **Reliable cabling and Wi-Fi** for your POS, inventory and e-prescription systems in each branch, with secure links back to head office.

Access control

- **Restricted access** to the dispensary and controlled-drugs store, with records of who entered and when.

Support

- Maintenance plans so every camera keeps recording, with fast response if anything fails.

Why FBI

One accountable team designs, installs and maintains cameras, networks and access control, working outside your busiest hours.

We would welcome a meeting and a free site survey at one branch of your choice, followed by a free design and quotation for all branches.

Yours faithfully,

Jerbel Mark Addeh
