Hospital Security & Networking Proposal

Prepared for Euracare Advanced Diagnostic & Heart Centre

North Labone · Adjiringanor, East Legon · ICU · Emergency · Oncology · IVF

Protect your patients, your staff and your data.

Date: 28th October, 2026

To: The Hospital Administrator, Euracare, 24 Peter Ala Adjetey Avenue, North Labone, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Network Infrastructure at Both Euracare Facilities

Dear Sir/Madam,

With 24/7 emergency care, ICU and HDU, oncology, IVF, maternity and NICU across Labone and East Legon, Euracare runs high-stakes, around-the-clock services. Film Beyond Imagination (FBI) would like to help you protect them with security and network systems built for a modern hospital.

What we would deliver

- **HD CCTV** at entrances, emergency bays, reception, car parks and corridors, with central viewing across both sites and careful placement for patient privacy.
- **Access control** for ICU, NICU, theatres, IVF laboratory, pharmacy and records, with an audit trail of every entry.
- **Reliable networking** for imaging and clinical systems: structured cabling, secure segmented Wi-Fi and backup links between Labone and East Legon.
- **Maintenance and support** under a service agreement.

Why FBI

We install CCTV, access control and networks for institutions across Accra, and we schedule work around clinical activity to keep disruption to a minimum.

We offer a free site survey, system design and quote. We would welcome a short meeting with your administrator and IT lead.

Yours faithfully,

Jerbel Mark Addeh
