Hospital Group Security & Networking Proposal

Prepared for The Trust Hospital

Osu · Ringway · Trust Towers · Adenta · Dansoman · Dome · Sakumono · Tema · Adabraka

Every hospital and clinic, secure and connected.

Date: 28th October, 2026

To: The Management, The Trust Hospital, Oxford Street, Osu, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for Group-Wide CCTV, Access Control and Network Infrastructure

Dear Sir/Madam,

With four hospitals, Trust Towers and clinics from Adenta and Dome to Dansoman, Sakumono and Tema, The Trust Hospital runs one of the largest private networks of care in Accra. Film Beyond Imagination (FBI) would like to help you secure and connect every site, and manage them from one place.

What we would deliver

- **HD CCTV** at entrances, emergency and reception areas, pharmacies and car parks, viewable centrally by management and placed to respect patient privacy.
- **Access control** for theatres, laboratories, records and drug stores, with an audit trail of every entry.
- **Reliable networking** linking hospitals and clinics: structured cabling, secure staff, clinical and guest Wi-Fi, and backup links.
- **One support contract** for all sites, with preventive maintenance.

Why FBI

We install CCTV, access control and networks for institutions across Accra, and we work around clinical schedules to keep disruption to a minimum.

We offer a free site survey, system design and quote for a pilot site of your choice. We would welcome a short meeting with your administration and IT team.

Yours faithfully,

Jerbel Mark Addeh
