Re: Proposal for CCTV, Access Control and Networking Across Top-Up Pharmacy Branches

Dear Sir/Madam,

As a 24-hour pharmacy with a Health Hub, diagnostics, cosmetology and home delivery, Top-Up Pharmacy handles valuable stock and cash day and night. Film Beyond Imagination (FBI) would like to help you protect your staff, customers and stock across all your branches.

What we would deliver

- **HD CCTV** covering tills, dispensary, shelves, entrances and the street front, with night vision and remote viewing on your phone.
- **Central monitoring** so management can review any branch at any time.
- **Access control** for stores and controlled-drug areas, with a record of every entry.
- **Reliable networking** linking point-of-sale, stock, delivery orders and cameras.

The benefits

- **Less shrinkage and safer night shifts**, with clear footage for any incident.
- **One installer and support contract** for all branches, at partner rates.

We offer a free site survey, system design and quote for your Community 9 branch. We would welcome a short meeting.

Yours faithfully,

Jerbel Mark Addeh
