Hospital Security & Networking Proposal

Prepared for Lister Hospital & Fertility Centre

Airport Hills, East Airport · GP, specialist & fertility services

Protect your patients, your staff and your data.

Date: 27th October, 2026

To: The Hospital Administrator, Lister Hospital & Fertility Centre, 1 Finali Drive, Airport Hills, East Airport, Accra

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for CCTV, Access Control and Network Infrastructure

Dear Sir/Madam,

A fertility centre handles some of the most sensitive care, records and specimens in medicine, and patients choose Lister for confidence as much as expertise. Film Beyond Imagination (FBI) would like to help protect that confidence with security and network systems designed for a private hospital.

What we would deliver

- **HD CCTV** at entrances, car park, reception, pharmacy and corridors, with central recording and remote viewing for management, placed to respect patient privacy.
- **Access control** for restricted areas such as the laboratory, theatre, records and drug stores: card or biometric entry with a full audit trail of who entered and when.
- **Reliable networking**: structured cabling, secure Wi-Fi with separate staff, clinical and guest networks, and backup links so your systems stay up.
- **Maintenance and support** under a service agreement.

Why FBI

We install CCTV, access control and networks for businesses and institutions across Accra, with a team that works around your schedule and keeps disruption to patients to a minimum.

We offer a free site survey, system design and quote. We would welcome a short meeting with your administrator and IT lead.

Yours faithfully,

Jerbel Mark Addeh
