Re: Proposal for Smart Home Automation, CCTV and Project Media Across Imperial Homes Developments

Dear Mr. Biney,

It has been a privilege to work with Imperial Homes, and we are proud to feature you among the clients on our website. As your developments grow, from Ayana Vistas in Cantonments to the Abuakwa Green golf resort, Film Beyond Imagination (FBI) would like to support you with the technology and media that set luxury developments apart.

Smart homes for Ayana Vistas, Imperial Lodge II and future projects

- **Phone control** of lighting, air conditioning, curtains and gates from anywhere in the world, with "Away" and "Night" scenes.
- **Smart locks, video doorbells and private in-home cameras**, ideal for owners who live abroad for part of the year.
- **A fitted-out show unit**, so every buyer experiences the technology on a viewing.

Security and networks

- **Estate and building CCTV** at gates, perimeters, car parks, lifts and common areas, with access control and guardhouse monitors.
- **Construction site CCTV** for active sites, including the Agenda 111 hospital project, viewable from management's phones to deter theft and track progress.
- **Resort-wide security and networking** planned into Abuakwa Green from the start: cameras, access control and Wi-Fi across the clubhouse, villas and grounds.

Project media

- **Construction progress films** with drone footage, for investors, off-plan buyers and buyers abroad.
- **Launch films and photography** for Abuakwa Green and new residential projects.

Why FBI

One trusted team designs, installs and maintains the cameras, networks and automation, and films the story of each project. We work alongside your contractors so systems are built in rather than added later.

We would welcome a meeting with you and your projects team to prepare a free design and quotation, starting with Ayana Vistas or a site of your choice.

Yours faithfully,

Jerbel Mark Addeh
