Re: Partnership Proposal for Smart Home Technology and Security Installation

Dear Sir/Madam,

Accra Elite Homes already promises buyers smart-home technology and round-the-clock security in Airport Residential, Cantonments and East Legon. Film Beyond Imagination (FBI) would like to be the specialist team that designs, installs and maintains those systems, so every home delivers exactly what your listings promise.

What we install

- **Smart home control:** lighting, air conditioning, curtains and gates on the owner's phone, with "Away" and "Night" scenes.
- **Smart locks and video doorbells**, so owners and property managers can let in trusted visitors remotely.
- **CCTV** for each home and for apartment buildings: entrances, car parks, lifts and perimeters, with guardhouse monitors.
- **Access control and building networking**, including reliable Wi-Fi for residents.

What Accra Elite Homes gains

- One accountable partner for every smart and security system, documented and handed over properly.
- Maintenance plans after handover, so buyers and tenants stay happy and your reputation stays strong.
- Partner rates on every unit, and support at viewings to demonstrate the technology to buyers.

Why FBI

We design, install and maintain cameras, networks and automation, and work alongside your contractors so systems are built in rather than added later.

We would welcome a meeting to review your current projects and prepare a free design and quotation.

Yours faithfully,

Jerbel Mark Addeh
