Re: Proposal for Estate-Wide CCTV, Access Control and Smart Home Options for Marlejor and Your Developments

Dear Sir/Madam,

Salem has built over a thousand homes across Adjiringanor, City of David and now Marlejor, all in gated communities. For buyers, the gate is a promise of security. Film Beyond Imagination (FBI) designs and installs the systems that make that promise visible: cameras, access control and smart home features that buyers can see and use from day one.

Estate Security Package

- **CCTV** at the main gate, perimeter, streets, playgrounds and common areas, with recording and a monitor in the guardhouse.
- **Gate access control** for residents, visitors and service staff, so the estate knows who comes in and out.
- **Remote viewing** for estate management, and maintenance plans so every camera keeps recording.

Smart Home Options for Marlejor buyers

- **Essential:** a video doorbell, outdoor cameras viewable on the owner's phone, and a smart lock.
- **Comfort:** everything in Essential plus phone control of lighting, AC and the gate, and "Away" and "Night" scenes.
- Offered as upgrades at purchase, so buyers can include them in their home and you earn on every upgrade sold.

Why this sells homes

Visible security and smart features are among the first things buyers compare, especially buyers abroad who need to watch over their homes remotely. We can fit out one Marlejor show house so every buyer experiences it on a viewing.

Why FBI

One team designs, installs and maintains the cameras, the network and the automation, working alongside your contractors so everything is built in rather than added later.

We would welcome a meeting at Marlejor to prepare a free design and quotation for the estate and a show house.

Yours faithfully,
