Re: Proposal for CCTV, Network Infrastructure and Maintenance

Dear Sir/Madam,

Film Beyond Imagination (FBI) designs, installs and maintains CCTV and network systems for businesses across Ghana. As a pharmacy that serves customers in store and online, Aide Chemists depends on both secure premises and a network that never lets your ordering and pharmacist chat services down.

What we propose

- **CCTV:** cameras covering counters, tills, stock and dispatch areas and entrances, with day and night recording.
- **Remote viewing** from a phone or office screen, at any branch you open.
- **Network infrastructure:** reliable cabling, Wi-Fi and network setup for your online orders, point-of-sale and stock systems.
- **Maintenance plan:** scheduled checks so cameras and network keep running.

Why FBI

We install neatly and quickly, outside your busiest hours where possible, and stay on call after installation.

We would be pleased to survey your premises at no cost and prepare a tailored quotation.

Yours faithfully,

Jerbel Mark Addeh
