FBI SECURITY & NETWORKS

CCTV & Network Security Proposal

Prepared for AMP Logistics Ghana Ltd

Freezones Enclave, Tema

Eyes on every bay, gate and container, from anywhere.

Date: 26th October, 2026

To: The Operations Manager, AMP Logistics Ghana Ltd, K23 Orchid Close – C20, Freezones Enclave, Tema

From: Film Beyond Imagination (FBI), Dome, Accra

Re: Proposal for Warehouse and Yard CCTV, Network Infrastructure and Maintenance

Dear Sir/Madam,

Film Beyond Imagination (FBI) designs, installs and maintains CCTV and network systems for businesses across Ghana. Warehousing, haulage and container terminal operations carry high-value stock and constant vehicle movement, which makes clear, recorded camera coverage one of the most practical protections you can have.

What we propose

- **Site survey at no cost:** we walk the warehouse, yard and gates, identify blind spots and recommend camera positions.
- **CCTV installation:** cameras covering gates, loading bays, stacking areas, stores and offices, with night vision and recording that keeps footage for the period you need.
- **Remote viewing:** management can watch any camera live or review recordings from a phone or office screen.
- **Network infrastructure:** structured cabling, office and yard Wi-Fi, and secure network setup so cameras, computers and systems run reliably.
- **Maintenance plan:** scheduled checks and quick response, so cameras keep recording when an incident happens.

Why FBI

We plan installations carefully, work with minimal disruption to operations, document every camera and cable run, and stay on call after installation.

We would be pleased to arrange a free site survey at your convenience and follow it with a detailed quotation.

Yours faithfully,

Jerbel Mark Addeh
