Re: Proposal for CCTV, Access Control and Network Infrastructure at Your Warehousing Facility near Tema Port

Dear Sir/Madam,

McDan's 15,000 square metre facility near Tema Port brings ambient, cold, bonded, hazardous-materials and e-commerce storage under one roof, with a warehouse management system that gives clients real-time dashboards. Film Beyond Imagination (FBI) would like to help make its security and network as advanced as the facility itself.

What we offer

- **HD and night-vision CCTV** across loading bays, racking aisles, the bonded and hazmat zones, gates, the yard and perimeter, with no blind spots.
- **Central and remote monitoring** for your security team and management, with recordings kept long enough to resolve any client or customs query.
- **Access control** by zone (bonded, cold, hazmat, fulfilment, offices), with a log of who entered and when.
- **Warehouse-wide networking and Wi-Fi** for scanners, the WMS and client dashboards, designed to stay up 24/7.
- **Maintenance plans** with fast response.

What McDan gains

- Fewer losses and disputes, faster answers to client queries, and a security story to show prospective clients at your open day.
- One accountable partner for cameras, access and network.

We would welcome a visit to carry out a free site survey and provide a clear, itemised quotation.

Yours faithfully,

Jerbel Mark Addeh
